

Corporate Profile

**ASSOCIATED
NETWORK LTD.**
(Engineering and Construction)

Introduction

Associated Network Limited (ANL) Consulting is a vibrant engineering and design company which is aimed at providing top quality Civil Engineering and Architectural services.

The company presently provides a complete project management, planning, design and supervisory services for Industrial and Building Services Engineering necessary for major construction and core engineering projects.

The last few years have seen a progressive increase in the size and complexity of commercial and Industrial developments. A high level of expertise and experience are required in the design and specification of engineering systems. The experience gained by the management and team of professionals of ANL, with diverse background on much large multi-storey office buildings, banks and residential buildings that now landmarks in major cities in Nigeria is immediately applicable to new projects undertaken by the company.

We utilize inputs from this vast reservoir of talents as and when required. The search for additional inputs is not restricted to Nigeria alone, but extended far beyond our borders when necessary.

The company's efforts are focused on correct identification of the Client's requirements in unique and complex projects and the development of cost effective solutions through integrated multi-disciplinary design.

Mission/Policy Statements

Mission:

To provide total Engineering Services in the area of consultancy/contract documentation, project management, construction and facility management geared towards meeting and surpassing clients' expectations.

Policy:

Engineering Consulting requires professionals who are creative, innovative, committed to excellence, prudent in choice of recommendation, technology savvy, with problem solving capability. Engineers at ANL Consulting are capable and accept these challenges.

Business Focus

Offered Services:

- Engineering designs;
- Engineering constructions;
- Preparation of contract documents including tendering;
- Project management;
- Supervision of construction;
- Feasibility studies;
- Survey and land developments

Field of Operation

- Traffic surveys and comprehensive urban traffic planning;
- Highways and air fields;
- Building and engineering structures including bridges;
- Water resources including dams and ground water development;
- Sewerage disposal systems;
- Land drainage/ erosion and flood control

Project Activity Highlights

- .Take the client's instruction/brief usually without any intermediary.
- . Prepare general layouts of the proposed engineering services in line with the architect's drawings, discuss them with the client/ architect and amend as required.
- . Prepare a design report and a budget estimate of cost.
- . Propose arrangements for the installation of the proposed engineering services. These will normally consist of inviting tenders from reputable sub-contractors, plant manufacturers etc.
- . Prepare detail drawings, specifications, bills of quantities and other contract documents, obtain tenders, evaluate them and recommend acceptance by the client of the best offers.
- . Supervise and co-ordinate the works of the various contractors, sub-contractors and suppliers etc.
- . Attend regular progress meetings, generally monthly, with client/ architect and contractors.
- . Witness commissioning of plant, services etc, generally jointly with client's staff, paying attention particularly to those items required for staff training.
- . Ensure that sub-contractors attend to list of outstanding works.
- . Issue completion certificates to sub-contractors.
- . Arrange for handing over of all As-built Drawings, Operations and Manuals etc. to client.

Directors

ABDULRASAQ ABDULRAHMAN ESQ L.L.B, BL
CHAIRMAN

A Solicitor and an Advocate of the Supreme Court of Nigeria attended the University of Lagos, Nigeria, where he obtained an L.L.B(Hons) in 1990, he thereafter proceeded to the Nigerian Law School, Victoria Island, Lagos State, Nigeria, for the One (1) year Bar Course and was admitted to the Nigerian Bar in December, 1991.
