

Corporate Profile

**ASSOCIATED
NETWORK LTD.**

(Engineering and Construction)

Corporate Profile Summary

We provide comprehensive engineering services in building services, electrical, mechanical, sanitary and air-conditioning and ventilation engineering. We also provide broader services in information management, communications systems, security and fire protection systems.

Engineering services provided include feasibility and cost studies, strategic planning, engineering investigation and report, engineering design and documentation and project management and implementation.

The firm's efforts are focused on correct identification of the client's requirements in unique and complex project and the development of cost effective solutions through integrated multidisciplinary design.

ANL engineers years of experience in engineering design and documentation, electrical and mechanical installations, project management, programming and cost control have continually helped in achieving the clients' goal at the best cost.

ASSOCIATED NETWORK LIMITED

Mission:

To provide total Engineering Services in the area of consultancy/contract documentation, construction and facility management geared towards meeting and surpassing clients' expectations.

Vision:

To become a major player in the built environment industry characterized by innovation, ingenuity and utilizing the most relevant technological advancement.

ASSOCIATED NETWORK LIMITED

Business Focus

ANL delivers Electrical and Mechanical Services with ability to generate unique and creative solutions to suite project needs. The scope of services includes:

Electrical Engineering Service Installation

High Tension Supply and Sub-Station Installation
Main Low Voltage Power Supply and Distribution
Standby Power Supply
General Purpose Power
General Interior Lighting
Earthing and Bonding System

Extra Low Voltage Services Installation

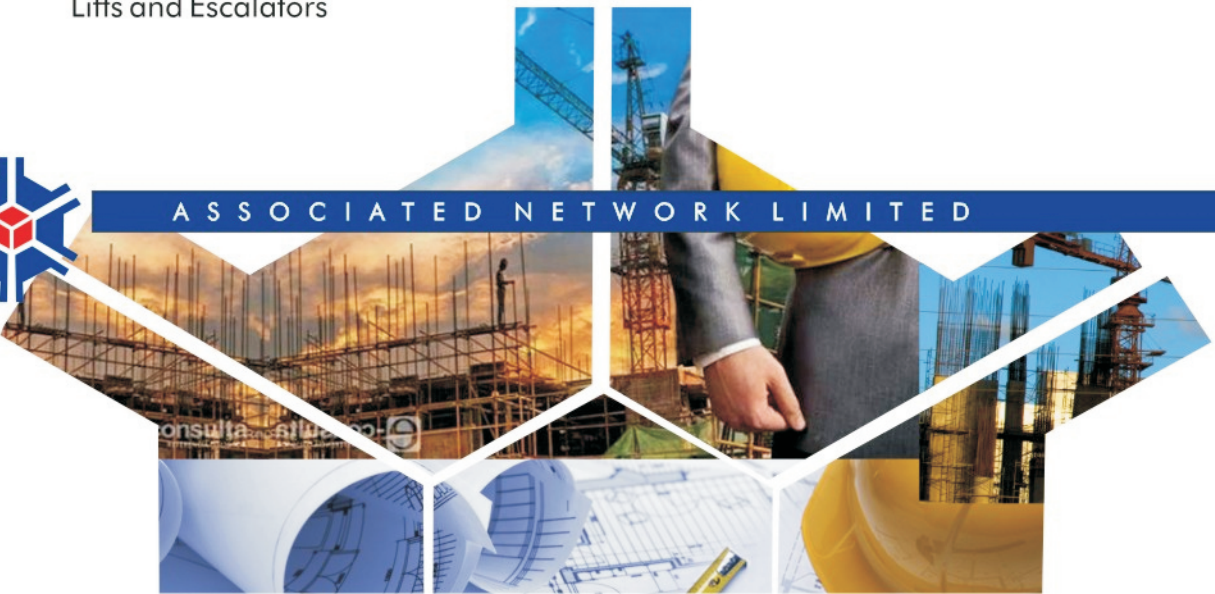

Intercom System
Electric Fence System
Motorised Gate System
Automatic Fire Detection and Alarm System
Television System
CCTV/Surveillance Solution
Data/Video Network System
Public Address/Multimedia Audio & Video System

Mechanical Engineering Services Installation

Cold Water Supply System Installation
Drainage System
Fire Protection System (FM200)
Air Conditioning and Ventilation System
Borehole Storage, Pumping and Reticulation System
Lifts and Escalators
